Abyssinia Chandelier

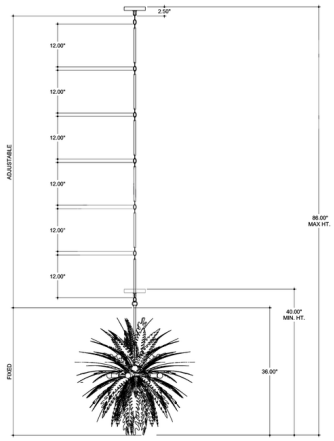

By Currey & Company

Description

Wildly exuberant in its energy, the Abyssinia Chandelier is a sensational creation exploding with flora in varying wrought iron shapes. Designed by Ian Thornton, the organic, nature-inspired chandelier was seriously labor-intensive to create, as each of the leaves is individually laser cut and bent, then welded to a center core to mimic how a plant would grow from a planter. The intermingling of contemporary silver leaf and dark silver leaf finishes creates an even more intense sense of texture.

Shown in contemporary silver leaf

Specifications
