## Holcroft Chandelier By Currey and Company

### Description

The wooden beads on this fixture were the inspiration for Ian Thornton as he designed around them to create the Holcroft Chandelier. The Sandstone-finished beads are fastened to a wrought iron frame dangling from a rod, both in a Sugar White finish to make this design surprisingly light. The large size of the beads is one of the surprising elements to this design that skews bohemian in style.

Shown in sugar white / sandstone
