## Hopscotch Chandelier By Currey and Company

## Description

Proving his prowess with woven and wrapped natural materials, Clarence Mallari designed the Hopscotch Chandelier. The frame and the arms from which it hangs are seamlessly wrapped in abaca rope. Fitted to the bottom of the disc-like form is a frosted glass diffuser that bows downward in the middle to add elegance to this piece. The rope chandelier is fitted with integrated LED technology.

Shown in natural / frosted
