Boswell Linear Chandelier

By Currey and Company

Description

The Boswell Linear Chandelier fits perfectly into a natural/black style story. The middle part of the frame in the front and back has a complex radio weave made of rattan that contrasts the black metal onto which it is fastened. The complex cage-like feel of the black chandelier is enhanced by the metal bars that extend above the frame on the top and below it on the bottom. A surprise detail is how the sides of the chandelier are left open.

Shown in black / natural
