## Creighton Ceiling Light

By Currey and Company

### Description

The marvelously modern Creighton Ceiling Light was designed by Clarence Mallari. The larger and smaller dome shapes are made of spun metal with a brass finish on the exteriors and a white finish on the interiors to enhance the brightness of the light. The bottom cup is fitted with integrated LED technology. A design detail that I like very much is the accent where the loop of the fixture connects to the rod, Mallari notes.
