# Reglobe Pendant

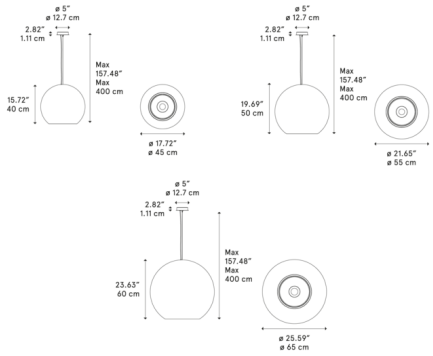

By Diesel Living

## Description

The Reglobe Pendant features a classic globe shade made of partly recycled materials. The shade is composed of 50% new and 50% recycled polyethylene derived from production waste, which produces multicolored terrazzo speckles that add visual interest to the pendant's purely geometric form. Reglobe's voluminous presence is perfectly suited to large spaces, especially when installed in a grouping of multiple pendants.

Shown in black / random terrazzo
