Stack Chandelier

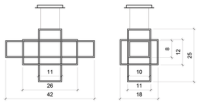

By Ridgely Studio Works

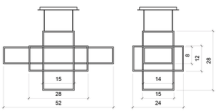

Description

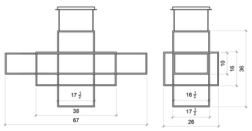

The Stack Chandelier is a compelling piece born from the concept of a line drawing made of light. Brake formed steel channels are fitted with modern LED lights and satin white acrylic diffusers to form this robust, stylish and functional fixture. Its generous scale and airy composition balance geometric lines with negative space, filling a large space without imposing significant visual weight. This chandelier is a striking contemporary lighting solution that shines in any environment.

Shown in matte black / satin white
