Bell Ceiling Light

By Roll & Hill

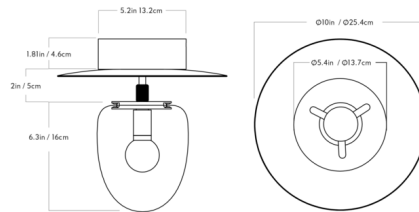

Description

The Bell Ceiling Light is a contemporary interpretation of classic bell jar lanterns dating back to the 18th century. The fixture's streamlined shape features a clear glass droplet beneath a round metal canopy and reflector. A small opal globe diffuser houses an integrated LED light source to produce warm, intimate illumination as a modern twist on candlelit lanterns. Unlacquered Brass is a living finish, meaning it will darken and patina over time. Polishing will restore the sheen if desired.
