## Bell Wall Sconce

By Roll & Hill

### Description

The Bell Wall Sconce was originally designed for Inness, a Hudson Valley hotel and resort that takes its design cues from the surrounding environment. Bell's purely geometric form is understated but elegant, a perfection addition to any space in need of soft, intimate lighting. The shade houses an integrated LED light source and is available in all opal glass or opal glass with a metal cap. Unlacquered Brass is a living finish, meaning it will darken and patina over time. Polishing will restore the sheen if desired.

### Specifications

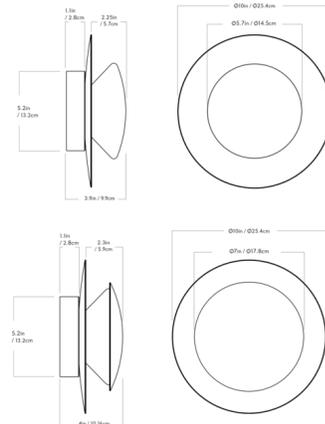

|                       |                        |
|-----------------------|------------------------|
