Hoopla Pendant

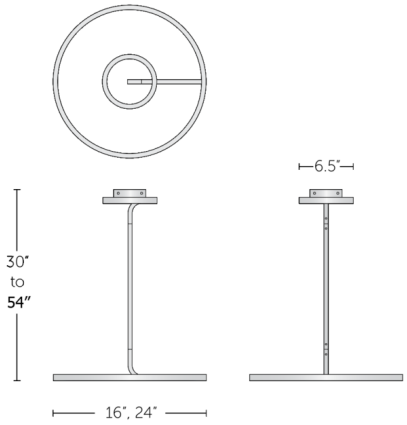

By Boyd Lighting

Description

The Hoopla Pendant was inspired by requests from architects and designers for fixtures that would not clutter space or compete with constrained interiors. Hoopla fulfills this role by taking the form of an open ring suspended by a slim downrod. The pendant is lined with integrated LEDs to direct light downward, making it perfect for task lighting in an office. NOTE: The overall height from the ceiling to the bottom of the pendant is specified to order and is not field adjustable: 30 inch minimum to 54 inch maximum. Please enter the desired overall height in the Additional Instructions / Notes section during checkout.
