T-Light Linear Pendant

By Boyd Lighting

Description

The T-Light Linear Pendant features a pair of extruded aluminum pieces flanking a linear etched glass diffuser to form an upside-down, T-shaped profile. The pendant's elongated form houses two LED strips to provide functional up and downlighting, which can be wired separately for independent dimming control of the up and downlights. T-Light's shape is reminiscent of a steel girder for a touch of industrial style, but its streamlined, minimalist form can also easily blend into a variety of decor styles. Note: Overall height specified to order: 12 inch minimum to 48 inch maximum. Includes 5 inch square canopy to cover a standard j-box. Due to the weight of the fixture, the 84 inch long pendant requires additional ceiling support.

Shown in black granite / etched glass

Specifications

COLOR Etched Glass
BODY FINISH Black Granite
WATTAGE 56W
DIMMER 0-10V
DIMENSIONS 60"L x 6.87"W x 5.5"H
