Disk Lighting Undercabinet Disk Light

By Generation Lighting

Description

The Disk Lighting system is a smart choice for undercabinet lighting, combining versatility, safety, energy efficiency, and dimmability down to 10%. This Disk Light is not only a functional LED puck light, but is also a sleek, stylish addition to your home with its compact form and painted aluminum construction. The light has USB-C ports for connecting to a driver or other lights. Multiple lights can be connected using connector cables (sold separately), to create an array of illumination for your kitchen, bar, or display case. Note: A driver and cord are required but not included. To use the light as a plug-in, use the Disk Lighting Plug-In Driver which includes a cord. To hardwire the light, use the Disk Lighting 12V Driver and a Disk Lighting Driver Power Cord.
