Azura Smart Ceiling Fan with Light By Hinkley Lighting

Description

Designed with a flowing, sculptural silhouette, the Azura Smart Ceiling Fan with Light adds contemporary appeal to any space, whether placed indoors or outdoors. Its durable composite blades are driven by a quiet yet powerful DC motor, and the integrated LED kit casts a soft ambient light. Convenience is at your fingertips with the included HIRO wireless control, which can be wall-mounted or hand-held. It uses WiFi and RF technology, and can set 6 speeds, forward and reverse, motor on/off, light on/off, and warm dimming (dims from 3000K to warmer). A face plate and cradles are included, and the remote fits in standard decorative style face plates. A manual on/off switch is also included. Another convenient control option is to use the Hinkley app on your smartphone or other smart device. In addition to the basic functions, the app offers advanced features such as timers and breeze mode, and enables linking with smart home tech including Google, Amazon Alexa, and Siri. A light kit cover is included. Other optional accessories are sold separately.
