Melt Burst Chandelier

By Tom Dixon

Description

The Melt Burst Chandelier is a stunning fixture with a large scale perfect for occupying volume in a lobby, entryway or communal space. Twelve imperfectly and organically shaped shades branch outwards from a sputnik-like frame to form a cluster of light. The Copper, Gold, Silver, and Smoke shades are opaque when the fixture is switched off, but when the fixture is illuminated they reveal a dazzling display of internal reflections. The Opal shade offers a more traditional look and produces a warm, translucent glow. Note: Due to the weight of the fixture, additional ceiling support is required.
