Vine Floor Lamp

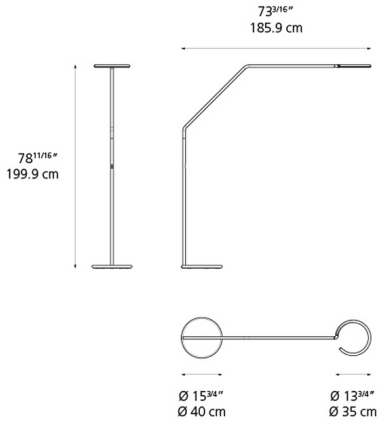

By Artemide

Description

Command attention with the striking form and dynamic functionality of the Artemide Vine Floor Lamp. This elegant fixture features an open, ring-shaped lamp head poised atop a thin, segmented stem, creating a distinctive silhouette with strong graphic character. The Vine's exceptional articulation allows for unparalleled lighting flexibility: its head can be rotated nearly 360 degrees to direct light either upwards for ambient illumination or downwards for focused tasks. Beyond rotation, the lamp head can also be tilted to project light outward into the room or back towards the lamp's base, providing precise control over its luminous output.The angled segments of the lamp create a captivating profile, ensuring the Vine is a sculptural statement even when unlit. A convenient dimmer switch is discreetly located on the lamp post, offering effortless adjustment of brightness to create the perfect ambiance. The Vine Floor Lamp is an ideal choice for living rooms, reading nooks, or as a contemporary accent in larger spaces, offering a unique blend of minimalist design, dynamic adjustability, and sophisticated elegance.
