Vine Table Lamp

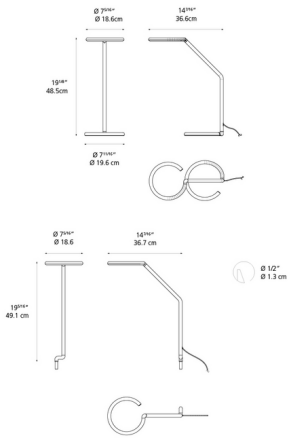

By Artemide

Description

Bring dynamic lighting and sculptural beauty to your tabletop with the Artemide Vine Table Lamp. This distinctive fixture features an open, ring-shaped lamp head gracefully supported by a thin, segmented stem, creating a silhouette of striking graphic character. The true innovation of the Vine lies in its highly articulated design: the lamp head can be rotated nearly 360 degrees to direct light either upwards or downwards, allowing for flexible ambient or task illumination. Furthermore, the head can be tilted to project light outward into the room or back towards the lamp's base, providing precise control over its luminous output.The angled segments of the stem contribute to its captivating form, making it a piece of art that illuminates. A convenient dimmer switch is seamlessly integrated directly into the lamp head, offering effortless adjustment of brightness to suit any mood or activity. The Vine Table Lamp is an ideal choice for desks, side tables, or nightstands, offering a harmonious blend of minimalist aesthetics, dynamic adjustability, and contemporary elegance.
