Abaca Mini Pendant

By Elk Home

Description

The Abaca Mini Pendant is a type of banana plant from the Philippines whose stalks produce fibers used in decorative items due to their flexibility, strength, and natural beauty. The Abaca fixture has a simplistic design that allows this material to be the focus of attention. Each strand of Abaca rope is tightly hand wrapped to form a textural facade of warm neutral-toned colors. The finished hardware complements each design with a metallic accent.
