Chapeaux M Table Lamp

By Foscarini

Description

The Chapeaux M Table Lamp features a clear central body made of borosilicate glass with open ends, topped with a sleek steel hat shade. When the lamp is off, the transparent body almost vanishes, and reappears with a subtle presence when the light is on. An LED module sits inside the top of the glass, dispersing light radially through a polycarbonate shell to cast an intense yet soft glow onto your surfaces. The glossy white shade interior enhances light reflection. A small brushed aluminum rod at the top of the lamp is a touch dimmer for turning the light on/off or setting brightness to 40%, 70%, or 100%.

Specifications
