Chapeaux V Table Lamp

By Foscarini

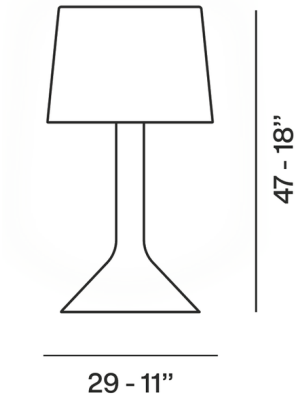

CE

Description

The Chapeaux V Table Lamp features a clear central body made of borosilicate glass with open ends, topped with a glossy blown-cased glass shade. When the lamp is off, the transparent body almost vanishes, and reappears with a subtle presence when the light is on. An LED module sits inside the top of the glass, dispersing light radially through a polycarbonate shell to cast an intense yet soft ambient glow throught your space. The Warm White glass shade option takes on a warm ivory tone when the light is on due to its interior layer of pale yellow pagliesco glass. A small brushed aluminum rod at the top of the lamp is a touch dimmer for turning the light on/off or setting brightness to 40%, 70%, or 100%.

Shown in clear / warm white

Specifications

COLOR	Warm White
BODY FINISH	Clear
