Guy Lantern Portable Table Lamp By Koncept Lighting

Description

The Guy Lantern Battery-Powered Portable Table Lamp is a stylish, versatile and convenient lighting source suitable for a diverse range of indoor and outdoor settings. This cordless, rechargeable lamp offers a warm, dimmable light, and lasts at least 10 hours on a full charge (or 80+ hours at the dimmest setting). The lamp consists of a cylindrical body base, globe head, and matching hat-like shade. An optional clothing-inspired item can be added to outfit this dapper fellow, letting you personalize the look: a bowl collar (Dark Grey glass bowl), cape (curved hot pressed felt in a Light Marble pattern), or disk collar (Dark Grey glass disk). LED light is diffused through the globe head to create a soft glow, and the hat shade can be rotated to adjust light direction. Take this lamp anywhere with you to add a welcoming pool of illumination to the space. Note: A charging dock with USB-C cord is included. To charge, plug the cord into a USB-C wall charger or other USB-C compatible power source, which are not included.
