Yurei Pendant / Ceiling Light with Acoustic Panel

By Koncept Lighting

Description

The Yurei Pendant / Ceiling Light with Acoustic Panel offers a minimal, modern aesthetic in its combination light and acoustic panel design. At its center is a large 9 inch light panel that emits a soft, high-quality diffused light. Around the light is an acoustic panel disk that helps reduce unwanted noise, creating a peaceful and calming environment. This versatile fixture can be installed as a pendant or flush mount ceiling light, and the acoustic panel is easy to attach or remove for switching colors or using the fixture without the panel. Designed with sustainability in mind, the Yurei is made of over 95% recyclable materials which makes it an excellent choice for organizations looking to reduce their environmental impact.
