Model 1095 Floor Lamp

By Astep

Description

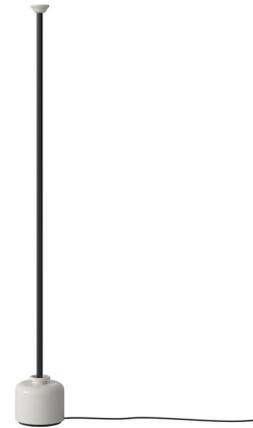

The Model 1095 Floor Lamp was originally designed in 1968 as an exploration and celebration of the halogen light bulb, which had recently been introduced to the world. This modern update of the classic design replaces the halogen bulb with a built-in LED within a reflector cup, maintaining the look of the original design while offering improved energy efficiency. Model 1095 directs light upwards towards the ceiling for a dramatic indirect lighting effect. The sleek aluminum stem and chunky steel base create a subtle, minimalist expression with playful proportions. Dimmer switch located on cord.

Specifications
