Model 2050 Pendant By Astep

Description

The Model 2050 Pendant is a re-issue of Franco Albini and Franca Helg's classic 1963 design that pays homage to the original while offering a modern update. The pendant's shade is crafted from Green Cast, a modern material similar to methacrylate that is 100% recycled and recyclable, highlighting the need for environmental sustainability in contemporary design. When the pendant is illuminated, the translucent shade produces a warm glow, and a simple drum-shaped silhouette ensures that Model 2050 will complement any interior.

Shown in black / smoke
