Model 548 Table Lamp

By Astep

Description

Originally designed by Gino Sarfatti in 1951, the Model 548 Table Lamp is an exercise in reflected and diffused light. The lamp's thin brass stem supports an adjustable spotlight which is aimed towards an indented methacrylate shade. The shade allows light to pass through itself as well as reflect back downwards, creating a unique lighting effect. An integrated LED light source and built-in touch dimmer provide a functional modern update to this timeless design.

Shown in azure / polished brass

Specifications
