Corbel Wall Desk

By Audo Copenhagen

Description

The Corbel Wall Desk was designed to address the changing workplace of today's world, where increasingly more common home offices require a functional work surface that will also complement the home's decor. The desk takes both its name and design cues from the architectural feature of the corbel, a piece of wood or stone that juts out from the wall to support a structure above it. Here, the wall-mounted corbels support a rectangular oak veneer tabletop to provide a stylish but practical home office solution.

Shown in dark stained oak / bronzed brass
