Black Diamond Outdoor Directional Light 12V

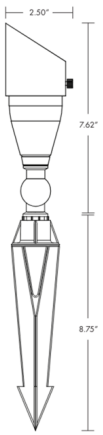

By Brilliance

Description

The Black Diamond 12V Directional Light is designed for outdoor uplighting, grazing, backlighting, and wall washing (when used with 120 degree lamps only). Spun Brass construction with baked enamel finish and includes a glass convex lens to prevent water build up. Includes two O-rings to mitigate water and condensation intrusion. Features an adjustment system which allows for 25 points of articulation of the knuckle. A set screw secures the fixture's cap so it does not come off when pointed down and the knob makes it easy to find and adjust in low light. Includes ABS mounting stake. Available with or without a 12V MR16 Ecostar bulb. Note: Required 12 volt transformer sold separately. Dimmable with Brilliance Dimmer and most magnetic transformers.

Shown in bronze / clear
