## Perla Tunable Touchless LED Mirror By Oxygen by Quorum

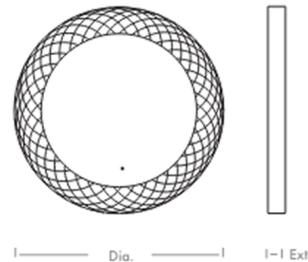

### Description

The Perla Tunable Touchless LED Mirror is a masterpiece of Italian design. Backlighting provides an ambient glow and lights up the elegant, etched swirls around the edge. With a hands-free infrared sensor, operating the mirror is as simple as a wave of your hand. Turn it on or off, adjust the brightness, and select your desired color temperature from 3000K-6000K by using the motion sensor.

Shown in glass / mirror
