No. 8 Dining Chair

By Sibast Furniture

Description

The No. 8 Dining Chair was originally designed in 1953 by Helge Sibast and quickly became an icon of the Danish Modern design movement. The Y-shaped frame and curving, molded backrest create the chair's uniquely modern expression, while the spindle back is reminiscent of older styles such as the Windsor chair. The technical expertise required to create such a design is a testament to Helge Sibast's exacting vision that honors the rich tradition of Danish craftsmanship. The No. 8 Dining Chair is available in a variety of upholstery options. Dunes Leather is an aniline leather with a matte surface that shows natural markings, and it will patina to a smoother and shinier finish with use and time. Victory Leather is a protected leather with a more uniform surface grain and few visible natural markings. Spectrum is a semi-aniline leather with a light finish that resembles fully aniline leather while providing a greater degree of protection from stains and fading.
