No. 2.1 Extendable Dining Table

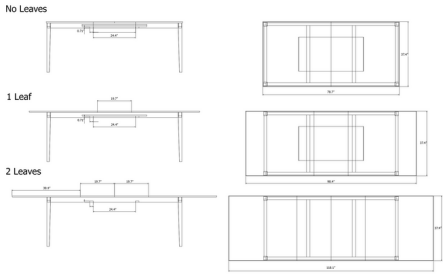

By Sibast Furniture

Description

The No. 2.1 Extendable Dining Table was inspired by Helge Sibast's belief that chairs should be placed beside a table, not hidden beneath it. To fulfill this requirement, the table features a simple and refined silhouette with a slim tabletop and narrow legs creating ample space to view the chairs when they are tucked beneath it. The width of the table can be extended with leaves (sold separately), which can be stored beneath the tabletop when not in use.
