Dreamer Linear Pendant By Studio M

Description

Drawing inspiration from her acclaimed Dreamcloud experiential design at Art Basel Miami, Nina Magon reinterprets her otherworldly installation for use in the home or hospitality project with the Dreamer Linear Pendant. The exaggerated curve, definitive of Magon's lighting design, suspends bubble-like glass forms that appear to float across channels of LED illumination. Dimmable via Triac, electronic low voltage (ELV) or 0-10V dimming.
