Dreamer Floor Lamp

By Studio M

Description

Drawing inspiration from her acclaimed Dreamcloud experiential design at Art Basel Miami, Nina Magon reinterprets her otherworldly installation for use in the home or hospitality project with the Dreamer Floor Lamp. The exaggerated curve, definitive of Magon's lighting design, suspends bubble-like glass forms that appear to float across channels of LED illumination. Dimmable via Triac or electronic low voltage (ELV) dimming. Dimming switch on cord.

Specifications
