Ulli Table Lamp

By Fermob

Description

The Ulli Table Lamp is a wireless LED marvel that redefines illumination in a sleek and modern way. Inspired by traditional oil lamps, this portable wonder boasts a polycarbonate diffuser that enhances the power of its integrated LED. The lamp's lightweight yet sturdy aluminum frame makes it an ideal addition to any setting. Note: Carefully thought out, its dimmer touch switch is perfectly integrated to its base and allows to adjust the intensity (from 10 to 100%) and color temperatures (3000K and 6000K) of its light output from your fingertips. This portable battery operated lamp can be recharged using the provided magnet cable, a magnetic charging system that is incredibly easy to use.
