## Edgemere Pendant By Hudson Valley Lighting

### Description

A modern air lantern design with a bold architectural silhouette is the Edgemere Pendant. In lieu of a central light source, LED strips are integrated into the cage of Edgemere itself. A rectangular panel of alabaster is attached to each arm, creating a geometric array of light within the piece. The sleek mixed materiality feels grand and traditional with a futuristic edge. Note: Dimmable via Triac or electronic low voltage (ELV) dimming. The large version is also dimmable via 0-10-V dimming.

### Specifications
