Wireflow Foyer Chandelier By Vibia

Description

The Wireflow Foyer Chandelier is elegant and amorphous, combining minimalist LED lighting and industrial black electrical wire to create sculptural and visually dynamic lighting installations. Pressed glass diffusers provide soft, diffused illumination from the integrated LED light sources. This fixture's tall height makes it a perfect statement piece for entryways and other spaces with high ceilings. Note: Due to the weight of the fixture, additional ceiling support is required.
