Wireflow Wide Chandelier

By Vibia

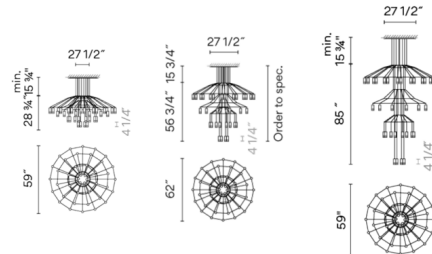

Description

The Wireflow Wide Chandelier is elegant and amorphous, combining minimalist LED lighting and industrial black electrical wire to create sculptural and visually dynamic lighting installations. Pressed glass diffusers provide soft, diffused illumination from the integrated LED light sources. This fixture's large makes it a perfect statement piece for entryways, lobbies, or dining rooms. Note: Due to the weight of the fixture, additional ceiling support is required.

Shown in black / pressed glass
