## Tempo Diamond Wall Sconce By Vibia

## Description

The Tempo Diamond Wall Sconce is inspired by luminance and the interplay between translucence, transparency, and opacity. The tapered glass diffuser is supported by a long, linear arm, which swings 160 degrees side-to-side to aim light precisely where it is need. The sconce includes a wall canopy to mount over a junction box. A cable from the bottom of the sconce to the canopy allows the fixture to be mounted away from the canopy, but it is not a plug-in sconce.
