Twist-N-Lite Cylinder Color-Select Pendant

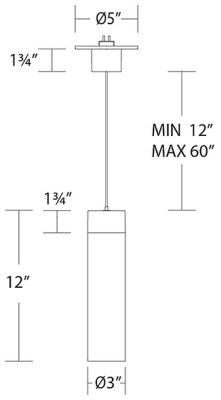

By WAC Lighting

Description

The Twist-N-Lite Pendant combines versatility and sleek, modern style that complements any contemporary space. Its integrated LED module emits light through a dual-layer clear and white acrylic diffuser, casting a soft, even glow. Color temperature can be adjusted to 2700K, 3000K, 3500K, 4000K, or 5000K using a switch in the fixture. The cable can be retracted or extended to adjust hanging height. TRIAC and ELV dimmable. This pendant is part of the Twist-N-Lite system, in which a single flexible canopy accommodates all ceiling light and pendant fixtures. Once the canopy is installed, you can simply twist the fixture on to lock it into place, or twist it off for removal. Effortlessly swap out fixtures in the field to suit your lighting applications. This innovative system elevates multifunctional illumination to the next level.
