Mezzaluna Floor Lamp

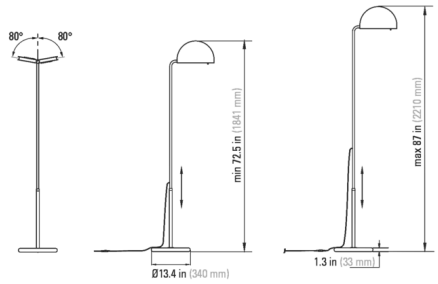

By DCWEditions

Description

The Mezzaluna Floor Lamp is a modern update to Bruno Gecchelin's original 1975 design. Intended to provide lighting for an entire room, Mezzaluna's semi-circular lamp head houses a powerful LED light source which directs light outward through an opening in one side of the shade. The lamp head can be tilted side to side, allowing for direct, downward lighting or indirect lighting directed upwards toward the ceiling. The telescoping stem can be used to adjust the height of the lamp, and a round marble base provides stability and a luxe material accent. Dimmer switch located on lamp head. Filters for 2400K and 2700K color temperature are included.

Shown in chrome / red

Specifications

COLOR	Red
BODY FINISH	Chrome
WATTAGE	32W
