Fidella Table Lamp

By Currey & Company

Description

The reactive black and white glaze on the surface of the Fidella Table Lamp is only one of the facets of this design that brings it a jaw-dropping texture. The bubbles that are inherent in artisanal glazing and the striations carved into the body of the ceramic lamp also contribute to the patina. The finial that matches the pear-shaped body's color and fastens the drum shade to the gray lamp completes this interesting composition. 3-way turn knob.
