Glebe Table Lamp

By Currey & Company

Description

The Glebe Table Lamp has a hexagonal shape made of ceramic with a white glaze with very subtle hints of beige and blue. The geometric complexity of this white lamp is heightened by the striated lines pressed into it and the indentions at the base, near its center, and as the body meets the hardware at the top. The base, hardware, and finial in an antique brass finish are warm elements to the design, as is the textural shade. 3-way turn knob.

Shown in white / beige / light blue / natural

Specifications
