Zowan Table Lamp

By Currey & Company

Description

The Zowan Table Lamp is made of ceramic in a matte green smoke glazing flowing along its surface that looks like a genealogical map. The cream that overlays the green has been hand-applied to bring the lamp an artful feel, and the optic crystal base from which the fixture rises leaves the painterly column to be the focal point of the design. One of the interesting things about this green lamp is that the pattern will change slightly when seen from different angles. 3-way turn knob.
