Countervail Ceiling Light

By Currey & Company

Description

The Countervail Ceiling Light was designed with its panes of thick cast glass. The textural surfaces were the starting point for this piece because the mottled nature of the glass would enhance the glow of the illumination from the clear and gold chandelier. Each unique piece of the material is fastened to a metal frame in an antique brass finish. The panes to be held in place with sophisticated screws, making a style statement and allowing each piece to be removable for cleaning.

Shown in antique brass / clear
