Goldfinch Tiered Chandelier

By Currey and Company

Description

The Goldfinch Tiered Chandelier is a complex geometrical puzzle that is worked one arm at a time. Each of the pieces of wrought iron is forged individually and welded to the frame to create the articulating profile. The statuesque fixture has a washed Lucerne gold finish, which has a slight texture to it because it is splattered on after the chandelier is constructed.

Shown in washed lucerne gold
