Radiant LED Advanced 150W Dimmer

By Legrand Radiant

Description

The radiant Advanced Dimmer is designed specifically for flicker-free control of dimmable LED light bulbs and fixtures. Control up to 150 watts of 120V forward phase dimmable LED/CFL/ INC load types. Single pole and 3-way operation. No neutral required. Features a calibration button which allows low and high-end adjustment to maximize dimming range while eliminating flicker. Burst mode setting can be activated to reduce or eliminate turn on delays and pop ons. Note: Pair with a screwless radiant wall plate, sold separately.Not intended for use with 0-10V, Magnetic Low Voltage and Electronic Low Voltage drivers.
