Andoria Pendant

By PageOne

Description

Formed from two hemispheres facing each other, the Andoria Pendant offers modern sophistication with its distinctive silhouette and mixed-material construction. The hemispheres are made of metal or acrylic, and an LED source inside casts a warm diffused glow throughout your space. Whether used as a single bedside light or as a series over a kitchen island, the versatile Andoria adds a chic touch to any setting. The canopy houses a retractable wire system, allowing adjustment of overall hanging height after installation. TRIAC and ELV dimmable.
