## Wisp Suspension Floor Lamp

By Anony

### Description

Inverting the idea of a pendant, the Wisp Suspension Floor Lamp reflects light instead of projecting it. A single cord runs from floor base to ceiling, suspending an elegant shape in mid-air. Light is cast upward from the floor base into the wide cone shade, which directs light back down and out. Touching the shade allows you to tune brightness while sliding the shade up or down changes the width of the pool of light. Note: For sloped ceilings, choose Slanted Ceiling for adjustable ceiling attachment.

### Specifications
