Ripple Wall Sconce

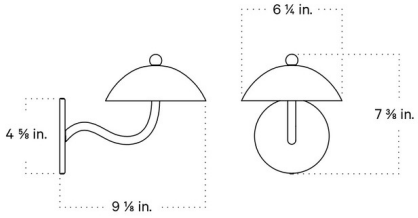

By In Common With

Description

The Dune Ripple Wall Sconce draws inspiration from sand formations that migrate with the wind and are shaped into undulating curves. The sconce's dome shade is supported by a gently curved neck for a playful and inviting expression. It is fitted with an integrated warm dim LED, which warms in color from 3000K to 1800K as the brightness decreases to mimic the look of natural candlelight. Dune Ripple's charm is matched by its versatility, as it is suitable for both indoor and outdoor use. TRIAC or 0-10V dimmable.Note: Includes driver to be installed within junction box (minimum depth of 1.5 inches required).
