Abaca Semi Flush Ceiling Light

By Elk Home

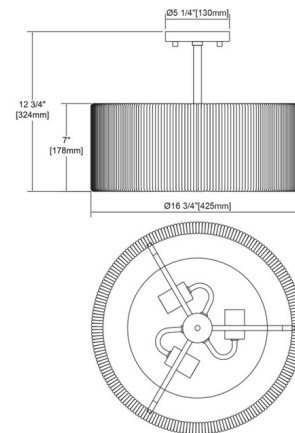

Description

The Abaca Semi Flush Ceiling Light has a simplistic design allowing the material to be the focus of attention. This semi flush would work well with a coastal, eclectic or rustic decor. Abaca is a species of banana tree, grown in the Phillipines. The stalks produce fibers used in decorative items due to the flexibility, strength and natural beauty. Each strand of Abaca rope is tightly hand wrapped to form a textural facade of warm neutral-toned colors.
