Talan Smart Ceiling Fan with Light

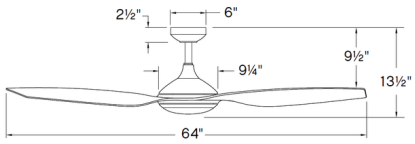

By Hinkley Lighting

Description

The Talan Smart Ceiling Fan with Light boasts a distinctively low-profile design with subtly curved blades. Its quiet, energy-efficient DC motor delivers refreshing airflow for comfortable enjoyment of any indoor or covered outdoor setting, while the integrated LED provides ambient illumination. Convenience is at your fingertips with the included HIRO wireless control, which can be wall-mounted or hand-held. It uses WiFi and RF technology, and can set 6 speeds, forward and reverse, motor on/off, light on/off, and warm dimming (dims from 3000K to warmer). A face plate and cradles are included, and the remote fits in standard decorative style face plates. A manual on/off switch is also included. The fan can also be managed using the Hinkley app on your smartphone or other smart device. In addition to the basic functions, the app offers advanced features such as timers and breeze mode, and enables linking with smart home tech including Google, Alexa, and Siri. A cap for no-light use is included, and other optional accessories are sold separately.

Shown in heritage brass / matte black
