Velestino Chandelier

By Kichler

Description

The Velestino Chandelier mixes minimal design with organic curvature. Its straight, sleek structure sets the stage as your eyes fall upon the fluidity of its thick, clear ribbed glass shades, evoking movement, and softness. The overlapping fluted glass features a soft curve on one side and a straight edge on the other, creating texture as the glass unites and is secured by matching finish fittings. A true piece of art, the Velestino fluted glass creates a touch of light play on the column of the fixture and the ceiling, creating a beautiful effect day or night.
